

Success Brief

Profile RPM
(Recruitment Process Manager)
HGV Transport Recruitment

“ Having used an older version of Profile in the past I knew it was very good, reliable and we were always well looked after, however my Managing Director and colleagues had used other systems so we reviewed about 10.

Having seen them all we opted for Profile RPM because it ticked all the boxes for us at the right price “

What were your reasons for looking for a new database?

We were opening a new off shore branch of an established recruitment group, having reviewed the existing database we decided that because none of us were very technical and due to our location had limited technical support we knew we needed a system that was really easy to use and administer, we also had to ensure we got good support from the supplier.

Why did you choose Profile RPM?

Having used an older version of Profile in the past I knew it was very reliable and we were always well looked after, however my Managing Director and colleagues had used other systems so we reviewed about 10. Having seen them all we opted for Profile RPM because it ticked all the boxes for us at the right price.

What are your views of Microdec?

Everyone has been so helpful, from the guys in the sales team all the way through to the technical support team who managed the installation for us, bearing in mind the limited resources we have they made the whole experience nice and easy for us.

You have had the system in place for some time now, are you satisfied that Profile does it for you?

Very! the training was so good and its so easy to use we were all up to speed very quickly and most importantly making placements.
